P R O J E C T S

● MedBook

June 2021

MedBook is an application which provides a platform to the patients and doctors to interact remotely. It also enables patients to buy medicines, book tests, etc. online.

● Digit Recogniser

June 2020

Digit Recogniser is a machine-learning based project which recognises a hand-written digit and classifies it into one of the classes [0-9].

● Price Calculator

June 2019

It is a Windows application developed in Java which takes input from available options of products' brands and variants followed by the quantity and calculates the total payable price based on pre-entered rates.

C E R T I F I C A T E S A N D A D D I T I O N A L C O U R S E S
